

ProShip® Software Suite backed by the strength of SPSI and Best Way Technologies

The ProShip logo features the word "ProShip" in a bold, sans-serif font. The "P" is white with a black outline, and "roShip" is yellow with a black outline. A registered trademark symbol (®) is located to the upper right of the "P".

Best Way Technologies

Systems & Programming Solutions, Inc. (SPSI) is a full-service provider of IT solutions in the Midwest and throughout North America. Our onetime business partner, Best Way Technologies, (BWT), developers of the industry's premier shipping software ProShip®, is located in Chicago, Illinois.

On February 2, 2009 SPSI and BWT merged Sales, Marketing and Operations to provide a better depth of software knowledge and engineering skills to our customer base. The complete acquisition of BWT is a central part of our stated strategy to be a World Class provider of Transportation Management Solutions.

BWT's industry expertise combined with SPSI Distribution Systems, Infrastructure, Application and Staffing Divisions allows our customers to increase productivity and competitiveness in this global economy without having to use a large array of vendors. SPSI, traditionally a systems integrator, has embraced the shift into Software Development.

ProShip Software has been recognized as "best of class", because of ProShip's unmatched transaction speed, its aggressive Carrier Compliance, as well as premium customer support offerings. Being the most Carrier Compliant means ProShip not only offers more certified services from FedEx, UPS, USPS and DHL, but provides availability to new services faster than anyone else. ProShip software has been integrated with most major enterprise software packages, as well as being specifically designed for and certified by SAP.

SPSI operates out of five US based offices including Milwaukee, Chicago, Madison, Minneapolis, and Cedar Rapids. SPSI-ADNM (SPSI's global subsidiary) also has office locations in Montreal, Paris and New York.
